

INSPECTION + AUDITING
EMERGENCY RESPONSE
CONSULTING
RESEARCH

Good Day,

My name is Sara Hornjak, Consulting Utility Forester for CNUC of Canada. CNUC is conducting assessments of vegetation on behalf of SaskPower along the high voltage power line for the circuit LY15. Located in the RM of Wilton No. 472, RM of Britannia No. 502, RM of Frenchman Butte No. 501, and RM of Mervin No. 499. I will be conducting an inventory of all required vegetation maintenance on this circuit.

I will be starting the vegetation assessment on June 2nd and estimate that I will be completed the field work by July 14th. I will follow-up with an email when I have completed the field work.

I will be driving a white Ford F-150 with CNUC logos.

If you have any questions, please do not hesitate to call, or email me at the contact information below. Alternatively, if I cannot be reached, please call Chris Proulx, CNUC Assessment Supervisor at 306-209-3370.

Thank you,

Sara Hornjak
